

Inventory Control Ideas

Inventory Ordering Ideas: do you take too much time ordering items and still experience stock outs and excess inventory?

MIKAL helps you set up a weekly system for ordering exactly what you need in seconds. You can print or e-mail orders direct to your vendors. We not only help with ordering, our system recommends changes in on hand amounts based on sales and professional product usage. We are barcode ready and even preload your new system with your product lines before you install our system. No one does inventory control like MIKAL.

Inventory Merchandizing Ideas: do you want to have limited time specials, shrink wrap promotions, and automatic add-ons to increase retail sales?

MIKAL provides you with the tools that help you increase retail sales. We analyze your top selling items and make it easy to create packages and programs that sell product. You will be able to retail like the big box retail stores. See a huge increase in your retail sales with MIKAL.

Inventory Sales Tracking: do you need to know all your product and inventory numbers at the touch of a button?

MIKAL gives you the ability to track sales for any time period with comparisons, product elegant sales graphs, and powerful reports that you can easily share with your vendors and staff.
