

Is your salon front desk challenged???

Do you have the following in your front reception area:

- a huge desk that keeps receptionists from being mobile hosts for your salon/spa
- a desk that collects junk
- a desk that takes up precious retail space
- a desk that does not have pull out drawers to get to the printer, back of the computer, and cables easily
- a desk that does not have easy access to product bags
- a desk that allows service staff to hang out around it
- a desk that is not designed to handle the new computer hardware like receipt printers and stationary barcode guns
- a desk that is not streamlined

We have been working “around” poorly designed desks for 25 years and have finally said enough is enough.

From hours of design, three separate prototypes, and major modifications we have now come up with the workable pedestal desk that is designed to work perfectly with our Preceptionist Program!

- The Pedestal Desk is free standing and designed for a standing preceptionist (the average person thinks 25% more clearly standing rather than sitting).
- The Pedestal Desk has the perfect places for your printer and computer (on pull out maintenance shelves), retail bags, work tickets, recessed flat screen monitors and all the other things your present desk does not offer.
- The Pedestal Desk is created to aid the preceptionist in customer service and maximum mobility!

So let's get a chain saw and sledge hammer and make some customer service adjustments in the front area of your salon/spa. Increase your retail area, increase customer service, and reduce hang out area at the front desk.

FAQs

What colors can I get? You name it. Go to Lowes or Home Depot and pick out your laminates.

How fast can I get it? Within 3 weeks unless you want some custom things like different drawer locations or

How much does it cost? One is \$1150, Two are \$1100 each, Three or more \$1050 each.

Shipping is \$50 to \$150 each depending on where you are.

You want other items to go with the Pedestal Desk? Call MIKAL and we will have the design company call you for other things – MIKAL does not promote the other items.

Can you send me the plans and all the measurements so my local cabinet guy can knock one off? No.

This desk design was a HUGE hit at the MIKAL Customer Meeting this year. Call us for more details or to order. We also have a turn key computer solution with all the toys at a great configured price. Call us for the details!
